## **Tornado Global Hydrovacs Reports Strategic Partnership**

**CALGARY, ALBERTA, CANADA, April 3, 2018** – Tornado Global Hydrovacs Ltd. (“Tornado” or the “Company”) (TGH: TSX-V) today announced that it has entered into an exclusive partnership with **Custom Truck One Source (Custom Truck)** located in Kansas City. The new partnership positions Custom Truck as the single distributor for Tornado products in the United States.

The Tornado ECO LITE hydrovac truck boasts many features, designed to meet the demands of today’s specialized excavation industry. The specialized truck is uniquely designed to weigh less, allowing more debris to be carried while remaining compliant with road weight laws. Tornado’s ECO LITE helps eliminate worries of accidents, fines and wasted time. Tornado’s hydrovac product line of products are easy to maintain and have been designed to the highest safety standards.

“We are very excited about this new partnership and look forward to assisting Custom Truck with increasing their market share of hydrovac truck sales and service throughout the USA,” stated Bill Rollins, CEO of Tornado. “Tornado has been manufacturing hydrovacs since 2001 and is recognized by the industry for our high quality, innovative design, simplicity of use, lack of complicated priority parts, and respected as one of the most functional trucks on the market. We will have a close working relationship with Custom Truck to ensure we service clients in a professional and prosperous manner.”

“We’re proud to partner with Tornado and excited about this relationship that equips us to provide a more robust and diverse offering of Tornado products and services to our customers,” said Fred Ross, CEO of Custom Truck.

“We’re expanding personnel by adding hydrovac specialists that will train our locations to provide exceptional service for Tornado products, as well as all OEMs”, said Paul Brouwers, Custom Truck Hydro-Excavation / Vacuum Product Manager.

Custom Truck locations will also offer a wide variety of parts including dig nozzles, dig tubes, hoses and safety equipment for Tornado products. As part of the partnership, Custom Truck will increase their Tornado fleet and will offer parts and services throughout all Custom Truck locations. Customers can further capitalize on this partnership with flexible, customized leasing and financing solutions through Custom Truck Capital.

### **About Custom Truck One Source**

Custom Truck One Source is the first true single-source provider of specialized truck and heavy equipment solutions. With sales, rentals, aftermarket parts and service, equipment customization, remanufacturing, financing solutions, and asset disposal, our team of experts, vast equipment breadth and integrated network of locations across North America offer superior service and unmatched efficiency for our customers. ## **About Tornado Global Hydrovacs Ltd.**

The Company designs and manufactures hydrovac trucks in Canada and sells hydrovac trucks for excavation service providers to the oil and gas industry and the municipal markets in Canada and the USA. Hydrovac trucks use high pressure water to pulverize soil and turn it into mud, and then vacuum up the resulting mud into its tank. Tornado currently operates in North America. The Company intends to expand its hydrovac business into China and has established a wholly owned operation in China with a head office in Beijing.
