## **Tornado Infrastructure Equipment Announces New Products Launch and TSX Venture 50™ Recognition**

**CALGARY, February 25, 2025** – Tornado Infrastructure Equipment Ltd. (“Tornado”, the “Company”, “we” or “our”) (TSX-V: TGH; OTCQX: TGHF) is pleased to announce the launch of new products and recognition in the TSX Venture 50™.

### **New Products Launch**

Tornado unveiled its highly anticipated EF4 Tornado Hydrovac and Coring Machine at the WWETT Show in Indianapolis, Indiana. These cutting-edge products have been designed, engineered, and manufactured in-house by our talented team, reinforcing Tornado’s commitment to innovation and excellence in infrastructure equipment.

### **TSX Venture 50™ Recognition**

Tornado is honored to be named to the 2025 TSX Venture 50™, which comprises ten companies from each of the five industry sectors determined by a range of factors including market capitalization growth, share price appreciation, and trading volume. This recognition reflects Tornado’s strong financial performance and disciplined growth strategy, driven by engineering innovation that has strengthened our market position and investor confidence.

This achievement would not have been possible without the continued trust and support of our investors, whose confidence drives our success. We extend our sincere gratitude to our shareholders, employees, and partners for their unwavering commitment to Tornado. As we continue to grow and execute on our strategic initiatives, we remain dedicated to our plans to deliver long-term value and sustainable returns.

### **About Tornado Infrastructure Equipment Ltd.**

Tornado is a pioneer and leader in the vacuum truck industry and has been a choice of utility and oilfield professionals with over 1,700 hydrovacs sold since 2008. The Company designs and manufactures hydrovac trucks as well as provides heavy duty truck maintenance operations in central Alberta. It sells hydrovac trucks to excavation service providers in the infrastructure and industrial construction and oil and gas markets. Hydrovac trucks use high pressure water and vacuum to safely penetrate and cut soil to expose critical infrastructure for repair and installation without damage. Hydrovac excavation methods are quickly becoming a standard in North America to safely excavate in urban areas and around critical infrastructure greatly reducing infrastructure damage and related fatalities.
